

## *“Possibilities In Sight”*

A FREE Program, Presented by Adaptive Technology a  
division of Perkins Products

### **A Senior Center / COA Educational Program**

Older adults make up the fastest growing population of individuals who are blind or visually impaired, so information for their needs is greater than ever. This unique group presentation is designed to offer solutions for independent living to older adults with vision loss. A variety of topics will be discussed, including:

- Eye condition symptoms
- Contrast & lighting possibilities
- Magnification
- New, easy-to-use technologies for the visually impaired
- Solutions for daily living such as cooking, shopping, and reading personal mail
- Other resources available to all

**To schedule this FREE educational program for your  
local senior center members please contact:**

Amy Halloran, Low Vision Specialist  
978-462-3817 or [Amy.Halloran@Perkins.org](mailto:Amy.Halloran@Perkins.org)

**SUBSCRIBE:** We also offer emails on a variety of topics, including demo and training announcements, the bi-monthly *Perkins Insight*, new product announcements, and reading lists and other information from the Braille & Talking Book Library. [Sign up today!](#)
