

Dementia Friends Massachusetts

A Dementia Friendly America initiative

Dementia Friends is a global movement developed by the Alzheimer's Society in the United Kingdom, where over 2 million people have become Dementia Friends. Dementia Friends has become the UK's largest social movement, and it is now underway in the United States.

The goal is to help everyone in a community understand five key messages about dementia, how it affects people, and how we each can make a difference in the lives of people living with dementia.
